

UI Research Documenta1on

Possible Color Palettes:

Things to consider with color:

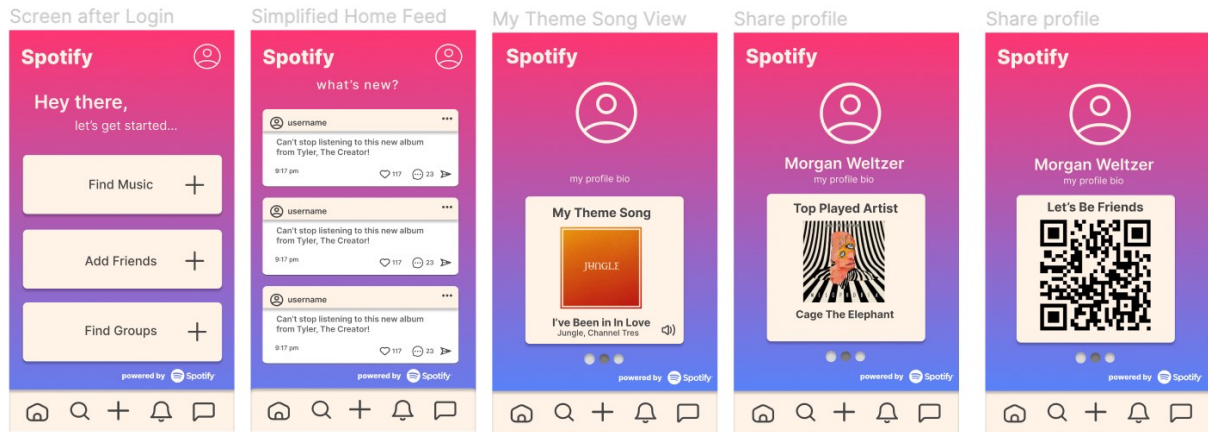

- Might want to choose something that feels similar to Spotify's design standard
- On that same note, maybe something similar to an already existing social media

Layouts:

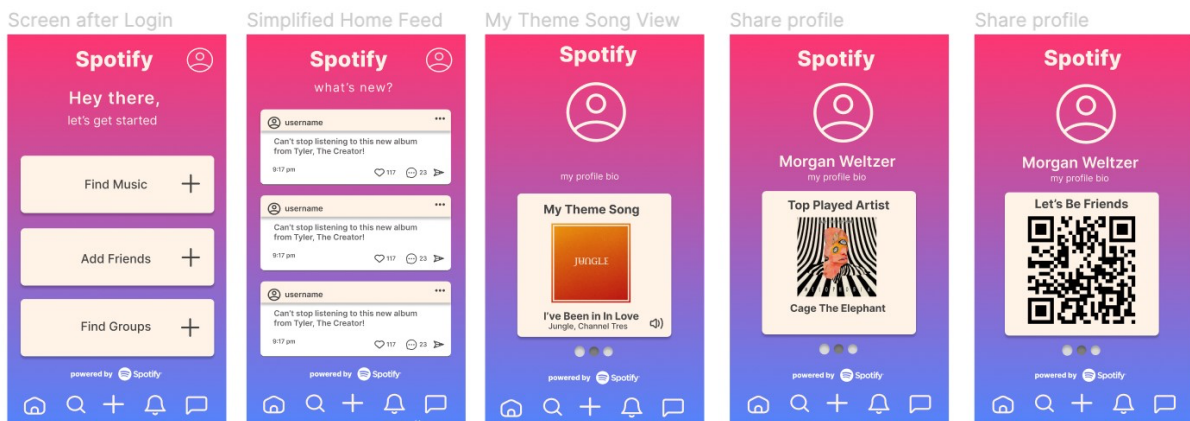

Mockup 1)

NOTE: Spotify is a filler and will be replaced by our music app name

- Ignore content for now, just trying to get some layout styles that we can use:
 - o Things to consider:
 - This layout uses the Spotify accreditation in the bottom left corner to balance out the Spotify app logo in the righthand corner.
 - The navigation bar has its own background to distinguish it from the rest of the page content
 - Rounded edges on page components

Mockup 2)

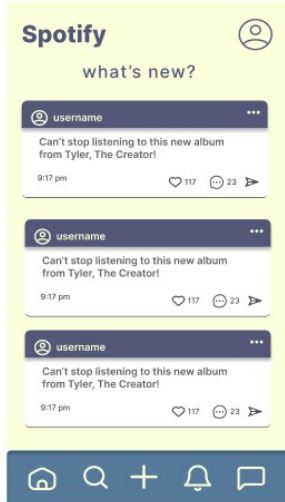

Notes:

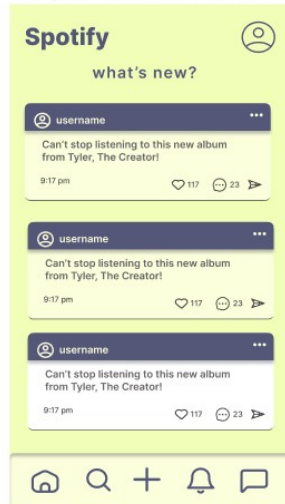

- Navigation bar does not have notable background
- Centered Spotify name and Spotify bottom accreditation

Mockup 3)
